Product & UX Designer - Bridging Design & Development with Code

With a background in computer science, I bridge the gap between design and development to create playful, intuitive digital experiences. I am passionate about solving real user problems, driving adoption, and designing for growth through engaging, thoughtful interfaces.

Experience

Apple Developer Academy

Technical Designer & Student | Aug 2024 – Present

- Designed and developed iOS applications and games using Swift, integrating seamless animations and habit-forming UX patterns.
- Led high-fidelity prototyping and iterative UI improvements based on user research, increasing usability scores by ~30%.
- Collaborated closely with cross-functional teams, bridging design and development for seamless handoff.

WSU AWS Cloud Club

Front-End Developer & UI Designer | Jan 2024 – June 2024

- Designed and built a responsive barter-based skill exchange platform, reducing onboarding confusion by 40% after usability testing.
- Implemented React.js components for core flows and integrated Firebase Authentication for secure access.

Projects

Calorie Creatures: Gamified Fitness App

UI/UX Designer

- Created a fitness app turning calories burned into points to hatch virtual pets, encouraging daily activity and long-term retention.
- Simplified onboarding and added habit-forming nudges, with testers reporting an 80% boost in daily workout motivation.
- App Store link: <https://apps.apple.com/us/app/calorie-creature/id6476787413?l=fr-FR>

Hopps: 2D Platformer Game & Redesign

UI/UX Designer

- Designed a flat-art/pixel-art hybrid platformer with intuitive mechanics and clear progression, contributing to over 220 downloads in the first 3 weeks.
- Refined onboarding and visual hierarchy, improving level completion rates by 35%.
- App Store link: <https://apps.apple.com/us/app/hoppsalpha/id6746287111?l=fr-FR>

Presently Yours: Voice Recording & Playback App

UI/UX Designer & Front-End Developer

- Built an emotional expression app to help users record and share personal messages in a safe, thoughtful way for the swift student challenge.
- Prioritized accessibility and an inviting visual design, improving adoption and user comfort.
- Implemented smooth recording and playback flows using AVAudio.

Education

B.S. in Computer Science, Minor in Math - Expected 2026

Skills

Design: Figma, Sketch, Adobe Illustrator, Procreate, Blender

Development: Swift, SwiftUI, React.js, HTML, CSS, Firebase

Core Strengths

Human-centered design, growth-focused UX, rapid prototyping, motion & interaction design, accessibility

Languages

English (Fluent), French (Native)
